SPEAD Programme

Graduates with Master's degrees in

- Petroleum Engineering
- Petroleum Geoscience
- Process and Electrical Engineering
- Safety and Environmental Engineering
- Chemical Engineering with E+P focus

are invited to apply for Wintershall's SPEAD programme.

The aim of the SPEAD programme is to develop young and highly qualified university graduates within our company for an international position. We offer you a tailor-made combination of "on the job training" supplemented with dedicated technical training over a 24 months period in order to equip you with the skills and competencies to excel in your future role within Wintershall. SPEAD combines practical training within the company's domestic and international operational units with training courses dealing in-depth with technical issues.

Essential for the SPEAD program, and for your employment with Wintershall, are a Master's degree, your mobility and enthusiasm to take on demanding assignments and projects.

You can upload your CV, personal motivation letter and your relevant certificates or references until

November 24, 2015 on:
